SUMMER CAMPS

"CREATIVE CHARACTERS: A WORK SHOP FOR YOUNG AUTHORS" Provides an environment that will encourage creative thinking and guide your child through the writing process. The camp is divided into two levels. Enrollment is limited to six students per group.

* **"Author's Corner 1"** (grades 4-6) Children will be engaged in different roles as authors using a fun approach while practicing and improving their writing skills.

* **"Author's Corner 2"** (grades 6-8) Students will become better writers while learning the secrets of fun, enriching writing techniques.

June 25 through June 29

3:00 - 5:00 PM

"FRACTURING FRACTIONS" Give students the opportunity to explore and understand the principles of fractions. By using specifically developed hands-on manipulatives, a fun approach for children, they will improve their understanding of the important skills needed while working with fractions. The camp is divided into two levels. Enrollment is limited to six students per group.

* **"Part to Whole 1"**: Grades 3-5

* **"Part to Whole 2"**: Grades 6-8

July 16 through July 20

3:00 - 5:00 PM

"MATH FACTS MANIA" Give your child one of the most important math skills needed to finish assignments quickly and accurately. The camp will offer creative strategies and stimulating activities to increase your child's enjoyment of learning the math facts. *Math Facts Mania* is divided into two levels. Enrollment is limited to six students per group.

* **"Camp 1-2-3"** Addition and Subtraction Math Facts (grades 2-3) A fun approach for children to improve their understanding of basic addition/subtraction math facts while increasing speed and accuracy.

* **"Divide and Conquer"** Multiplication and Division Math Facts (grade 4-6) A fun approach for children to improve their understanding of basic multiplication/division facts while increasing speed and accuracy.

August 20 through August 24

3:00 - 5:00 PM
